specialist  
Psychiatry  
team

Brisbane Waters Private Hospital commenced operating in 1978 and 44 years later, it is now home to the Central Coast Clinic, the largest private mental health facility in the region and is poised for future growth to meet the ongoing needs of the Woy Woy, Central Coast and Northern Sydney region.

Apart from our existing 37 bed mental health ward, our group of more than 50 Specialists, have access to four operating theatres, a dedicated Day Surgery unit and a state of the art, 34 bed Rehabilitation Unit, 109 in-patient beds, onsite consulting suites, medical imaging and pathology services,

Our hospital proudly supports the local community with over 270 highly skilled staff experienced in providing exceptional care.

**At Brisbane Waters Private we believe that:**

- Patient care is a shared experience
- Everyone deserves discreet, flexible and holistic care delivered by a close knit and responsive team
- Choosing local, also means choosing quality care with positive outcomes
- All patients deserve access to the benefit of surgical and nursing expertise delivered with empathy and compassion.

**At Brisbane Waters Private our team cares and are proud to:**

- Listen, respond and provide personalised care for patients and their families.
- Support everyone at every age and at every stage of care
- Provide an inclusive, diverse and welcoming environment
- Care for our community

## Join our Central Coast Clinic team

As the largest private mental health facility on the Central Coast we provide a range of evidence-based treatments and services delivered through a diversity of day patient and in-patient programs. These include:

- Electroconvulsive Therapy (ECT)
- Repetitive Transcranial Magnetic Stimulation (TMS)
- Dialectical Behaviour Therapy (DBT)
- Cognitive Behavioural Therapy (CBT)
- Acceptance and Commitment Therapy (ACT)
- Music and Art group therapy
- Physical/hydrotherapy

The needs of our patients are varied and so too are the conditions which we provide support to our patients through Psychiatric services. These include:

- Substance abuse disorders
- Anxiety disorders
- Older persons mental health
- Mood Disorders
- Psychosis

## Support services available on site ...

Brisbane Waters Private Hospital also have the following services on site;

- Hospital Medical Officer on call 24/7, onsite for post operative patients or out of hours patient medication needs
- Radiology- CT, Ultrasound and X-Ray

- Opportunities to host and present at GP education evenings

## Growth on the horizon

Brisbane Waters Private Hospital is poised for an exciting chapter of growth in the next 18 months in the area of mental health services.

Plans are underway to add a new storey to its northern ward, and expand the ground level at the southern corner of the hospital.

With the focus on expanding the mental health services provision of the site's Central Coast Clinic, the proposal will result in a 1,731sqm increase in floor area, 15 extra car parking spaces, 27 extra patient beds, and an increase in staff numbers equivalent to 12 full time roles.

# Psychiatry Market Analysis

## Unique Market Opportunity

Hardes Data is a forecasting tool which provides data which allows health organisations to interpret current unmet demand and forecasted growth in the needs associated with a particular speciality.

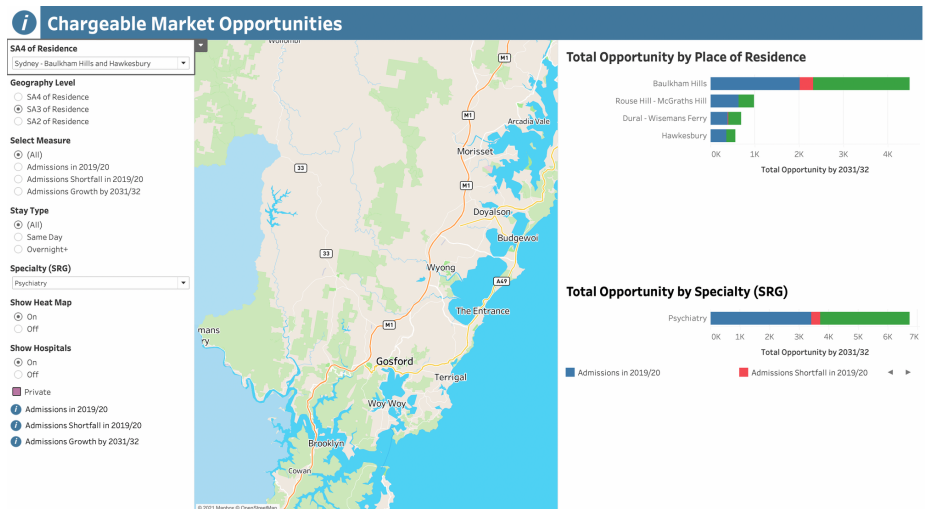

## Central Coast Opportunity - Psychiatry

The 2019/2020 Hardes data tells us that there is unmet demand for admission to Psychiatry services on the Central Coast which will continue on a trajectory of strong growth in demand for the next 10 years.

## Sydney/ Baulkham Hills /Hawkesbury Opportunity - Psychiatry

The 2019/2020 Hardes data tells us that the unmet demand for Psychiatry services in the Northern Sydney catchment area is significant. Located only 40 minutes from this area, Brisbane Waters Private's Central Coast Clinic is well positioned to capitalise on this demand and projected growth rather than other services in Inner Sydney suburbs.
